Your cushions, *ready* for next season

When the season ends we collect your cushions, pads, sunpads and covers. We deep-clean them, check them, store them dry and bring them back fitted in spring. You do not have to do a thing.

Salt, sun and winter damp are what damage textiles most. Good care adds years to their life and prevents mould and odours.

FAQ

- **Where are they stored?** In our Palma workshop, in a dry, ventilated space. Places are limited: book in October or November.
- **Outside Palma?** We work all over Mallorca; we tell you any travel supplement before we start.
- **Hotels open in winter?** We collect in batches so you are never left without sunbeds.
